

President's Office
Oregon Coast Community College
400 SE College Way, Newport, OR, 97366

Kathy Andrews,

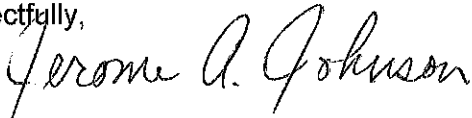

April 5, 2022

I would like to be considered for the vacant Board of Education position for Zone 6. My residence has been in South Beach since 1998 and I have followed the development of the OCCC campus and programs from the beginning to current times.

My education and experiences have been closely involved with community colleges, vocational schools and adult education. Having taught and administered programs with both Washington and Oregon community colleges provides some understanding of the problems, financing, operation and challenges of the different systems. My overseas employment in a multinational work environment gives me an appreciation of the barriers faced by different cultures and individuals trying to accomplish educational goals. Working with the local Community Services Consortium exposed me to the unique work- related needs of Oregon Coastal communities.

These academic and work situations have provided me with a background which I believe could be useful as a board member for Oregon Coast Community College. Although I have been retired for some years, it would be interesting to return to the academic environment and participate with the board in the ongoing growth of academic, adult and vocational programs for Oregon coast communities.

Respectfully,

A handwritten signature in black ink that reads "Jerome A. Johnson". The signature is written in a cursive style with a large, stylized "J" and "A".

Jerome A. Johnson EdD
