

Financial aid provides many students the funding they need to earn a degree or certificate from OCCC. Your success is important to us, and for this reason, at the very first sign of trouble, we want to make sure that you have access to accurate information regarding your situation and access to the wide range of supports that OCCC offers.

Complete the steps below and return this signed learning contract and academic plan with your financial aid satisfactory academic progress appeal.

INSTRUCTIONS

1. Please meet with your academic advisor to discuss your situation. Your advisor can:
 - help you project your GPA calculations and rate of course completion to help you get back into compliance ASAP
 - have your back as you navigate complicated life situations
 - make referrals both within and outside the college tailored to your specific need
2. Plan out your upcoming terms with your advisor. Then complete the attached program plan for at least the next three terms, or until graduation.

Acknowledgments

I understand that I will be in good academic standing when:

- I satisfactorily complete 67% of all attempted courses
- I have cumulative GPA of 2.0
- I agree not to deviate from the attached program plan without consulting my advisor and having a new academic planner prepared.
- I understand the Financial Aid Office will take this contract into consideration along with my appeal when deciding whether to approve or deny my satisfactory academic progress appeal. If approved, you will be placed on financial aid probation.

Student signature/Date

I confirm that the student has met with me to discuss a plan for satisfactory academic progress and that the courses listed on the attached planner are a result of that meeting.
