

## President's Report

October 21, 2020

President Ryslinge signing the very first OCCC Diploma! Soon to be signed by our Board Chair, Nancy Osterlund

Oregon NASA Space Grant Consortium is looking for a new logo and they want students to design it! As such, they're hosting a logo contest. The winner gets \$250 and bragging rights! Any student from a consortium college (which includes OCCC) can submit an entry, regardless of what kind of degree they're pursuing. Deadline for entries is Friday, October 30, 2020.

### Also, Of Interest:

- Listing agreement signed for surplus Waldport property, \$190,000. Realtor is Ocean Equity Real Estate, agents are Becksted & Rogers.
- Enrollment: holding steady at approx. 2% down, input still pending of an unusually large cohort of Small Business Management students. Will put us well over last year but will have ebbs and flows over the coming years causing significant FTE fluctuation.
- The nursing lab has been moved from Waldport to Lincoln City. EMT starts there next week, Medical Assisting begins in November, and CAN is scheduled to begin in January 2021.
- Pandemic News:
  - Protocols & CVRT continue to work well
  - HECC deferred some guidance to OHA & OSHA issued rules on workplace with some impact on face-coverings and other protocols.
- In process: revising/renewing the Nursing MOU with TBCC
- Bargaining team is working with faculty on workload matters.
