Study Natural Resources on the Oregon Coast

OCCC's new Associate of Science in Natural Resources provides an affordable, local pathway for students interested in:

- **Conservation**
 - **Sustainability and Ecology**
 - **Environmental Stewardship**
 - **Natural Resource Management**
- Learn close to home before pursuing a bachelor's degree at Oregon State University
 - Hands-on learning connected to the central Oregon Coast
 - Supportive faculty, small classes, and personalized advising

To learn more and get started, make an appointment with a friendly student success coach or visit our website.
