SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures
Inhalation Remove patient from exposure. Keep patient at rest and give oxygen if breathing difficult. If symptoms develop, obtain medical attention.

Skin Contact Wash exposed areas with soap and warm water. In the event of irritation, seek medical advice. Can be absorbed through skin causing systemic harmful effects.

Eye Contact Remove any contact lenses. Irrigate with eyewash solution or clean water, holding the eyelids apart, for at least 15 minutes. Obtain immediate medical attention.

Ingestion Not a likely route of exposure. Ingestion is expected to cause irritation of the gastrointestinal tract. If swallowed, seek medical advice immediately and show this container or label. Do not induce vomiting. Make victim drink plenty of water.

4.2 Most important symptoms and effects, both acute and delayed

Acute: Can be absorbed through skin causing systemic harmful effects. May cause drowsiness and dizziness. Irritant effect on skin and eyes. Affects liver, kidneys, central nervous system when systemically absorbed or ingested.

Delayed and chronic effects: Expected to be similar to acute exposures. Multiple or prolonged contact with skin may result in chemical or allergic dermatitis.

4.3 Indication of the immediate medical attention and special treatment needed
Treat symptomatically.

SECTION 5: FIRE-FIGHTING MEASURES

Combustible at fire temperatures. Acrid smoke. Not Sensitive to mechanical impact and static discharge.
Flash Point > 93.3°C / 200°F. Explosive Limits: NA Auto-Ignition Temperatures: NA

5.1 Extinguishing media
Suitable Extinguishing Media Extinguish preferably with dry chemical, foam or water spray.

Unsuitable Extinguishing Media None known.

5.2 Special hazards arising from the substance or mixture
Containers may rupture from exposure to high temperatures, releasing contents that may be slippery.

5.3 Advice for fire-fighters
A self contained breathing apparatus and suitable protective clothing should be worn in fire conditions. Extinguish preferably with dry chemical, foam or water spray.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures
Nitrile gloves are suggested for spill cleanup. Ensure suitable personal protection (including respiratory protection) during removal of spillages.

6.2 Environmental Precautions
Environmental hazards cannot be excluded by inappropriate handling or disposal.

6.3 Methods and material for containment and cleaning up
Mix spilled product with sand, then shovel up into covered container. For small spills on hard surfaces, allow substance to harden, then scrape up and discard. Do not crush aerosol cans.

6.4 Reference to other sections
See Also Section 7, 8, 13.

6.5 Additional Information
None

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling
Avoid ingestion. Avoid skin and eye contact. Use only in well-ventilated areas. Keep away from oxidizing agents. Heating of containers may cause pressure rise, with risk of bursting. Do not crush, puncture, or attempt to dismantle aerosol cans.
7.2 Conditions for safe storage, including any incompatibilities

Gases under pressure. Do not use or store near heat or open flame. Do not store and transport with oxidizers etc. Do not crush or puncture cans.

Storage Temperature
Ambient.

Storage Life
Not available

Incompatible materials
Can react violently if in contact with acids, and oxidizing agents.

7.3 Specific end use(s)
